

- The Department of Business Administration at Ling Tung University, established in 1965, has the vision of cultivating professional managers. We are devoted to cultivating analytical decision-making and executive abilities in various industries.
- Our faculty focuses on developing abilities in project management, enterprise resource planning, marketing management, financial management, production management, and human resource management. We also invite entrepreneurs and professionals from various industries to be our guest faculty. Our courses consist with three major fields: entrepreneurship and management, project and technology management, and human resources management.
- We have collaborated projects with the Ministry of Science and Technology, the Ministry of Labor, and the Ministry of Education to cultivate students with internships, visit companies, collaborative teaching, competition, and obtaining certificates.
- Some of our programs will help students to visit the world. We encouraged students to pursue advanced studies abroad at our Strategic Alliance School in Europe, North America, Japan, Korea, New Zealand, and Australia. Bring the advanced learns and experiences and share with classmates that no other can offer.
- Students who complete two of three major fields and graduate from our department have the reputation and outstanding performance in various industries.
