

企管系高階經營管理碩士在職專班

Executive Master of Business Administration

Since twelve years of the establishment of the LTU-EMBA program. We have cultivated more than 300 advanced management talents for the industry, government departments, the military, education institutions and non-profit organizations. Since 2019, our university has invested heavily to enhance the original EMBA classroom and updated all classroom desks and chairs, as well as all kinds of digital teaching equipment, in order to bring more high-quality classroom environment and teaching quality to friends from all walks of life. We look forward to all of people will actively apply for EMBA program.

Program Features

- Enhancing the ability of management: The firm's decision-making analysis and thinking ability are specially emphasized by the firm, and our hope is to enrich the ability of management for executive managers in the future.
- Exclusive courses: we apply the Stanford University consultant system to help students find their own individual curriculum.
- International perspective: Every year, we plan overseas visits to well-known enterprises to enhance business management talents with an international outlook and cultural adaptability in the world.
- Comprehensive education: It is expected that all EMBA students will be able to think comprehensively, in order to explore, define, state, analyze, and effectively solve problems.
- Flexible teaching: Respect the flexible arrangement of courses between teachers and students, and actively provide service assistance in administrative affairs.
