Office of Career Development

Introduction & Core Values

The main purpose of the Office of Career Development lies in providing both students and alumni with the information and services for career planning, employment, internship, certificate counselling, innovation, and entrepreneurship.

These services include:

1. Employment-seeking registration services for students and alumni
2. Employment information involving recruitment, study, work, skill development and training courses
3. Employment forums and campus recruitment events
4. Student internship and certificate counselling
5. Environment construction for "start-ups" and "innovation"

Mission

1. We are dedicated to developing students to become employees that are both well educated and professionally equipped.
2. We help students explore suitable careers while stepping into the world.
3. We offer a variety of programs and resources to assist students with their internship.
4. We counsel and encourage students to obtain professional certificates.
5. We construct an environment for "start-ups" and "innovation" for students and alumni.
